Profile

Visual Designer with experience spanning advertising, branded entertainment, production, apparel, and AI-assisted creative systems. I enjoy building ideas from concept through execution, combining strong visual craft with emerging technology to create compelling brand experiences. My work has contributed to campaigns for global brands across commercial, experiential, and digital spaces.

Work Experience

Visual Designer

SixTwentySix

| 2025 – PRESENT

- Design creative treatments, pitch decks, and visual systems for major commercial campaigns and brand initiatives.
- Contributed to campaigns and presentations for brands including Amazon, Samsung, Dunkin', Priceline, Heineken, Taco Bell, and other global clients.
- Develop AI-assisted creative workflows and internal design systems that accelerate concept development and presentation production.
- Work across branding, apparel, experiential, digital, and motion design projects while collaborating directly with producers, strategists, directors, and creative leadership.

Graphic Designer

Otis Design Lab

| 2023 – 2025

- Developed branding, experiential, and visual communication systems for real-world clients through Otis' industry design studio.
- Independently designed and executed the visual identity and campaign assets for a large-scale gala experience.
- Collaborated directly with clients and stakeholders to transform strategic objectives into cohesive creative solutions.
- Strengthened expertise in brand identity, storytelling, and presentation design.

Production Design Intern

Critical Mass

| 2022

- Supported production design and creative development for nationally recognized brands.
- Led internal content initiatives while serving as a contributing content editor.
- Worked across digital, experiential, and production-focused design projects.

Production Assistant

Dennis Leupold

| 2024

- Supported on-set production for album cover and beauty shoots with celebrity and music talent, assisting the photographer and crew through setup, shoot, and wrap.
- Coordinated lighting, equipment, and set logistics to keep shoot days running on schedule.
- Maintained gear, staging, and on-set continuity across fast-paced, high-profile productions.
